A schematic diagram of a circular device 10. Inside the circle, there is a central cross-like structure 11. Surrounding it are several curved elements 13 and 15. A wavy line 16 is connected to a small circle 12. A spiral 17 is also present. A ring 14 is located at the bottom. A terminal 25 is connected to a wavy line 16. The entire assembly is enclosed in a large circle 10.
